SATURDAY, NOVEMBER 20, 1920.

OUT OF A MEAN SPIRIT.

Mr. J. J. Dwyer, formerly a member of the State Harbor Commission of San Francisco, appeared yesterday before the joint committee of Congress here investigating proposed sites for the new Pacific naval base, with the alleged purpose to present to the committee the merits, if there were any, of the claims of San Mateo that the naval base should be located on the peninsula south of San Francisco. But the real purpose was entirely ignored by Dwyer and he concentrated on an attack on the Alameda naval base site.

So amazing and uncalculated for was the Dwyer attack that members of the congressional committee three times felt it appropriate to rebuke him and to warn him to confine his efforts to a discussion of San Mateo's claims if he expected any consideration.

Just why a man of the experience of Mr. Dwyer, and one in whom, in former times, the governor of California had reposed sufficient confidence to place him in the position of harbor commissioner, should have been so ignorant or scornful of the properties, it will remain for Mr. Dwyer to explain. His friends find the task impossible. If any considerable body of San Mateo citizens had any confidence in his fitness for a task that required straightforward and straight-minded action they must now abandon it.

It is barely possible, since there was never any reason, or logic, or merit, to the last-minute claim of San Mateo for consideration as a naval base site, that Mr. Dwyer was assuming the unlovely role of attempting to pull out of the fire the irons of some other claimant. But this seems almost too violent an assumption, even after his astounding display of yesterday.

So we are forced to fall back on the conclusion that Mr. Dwyer simply did not know how. Not only did the Alameda site come in for direct criticism by him, but the technical reports of two commissions of distinguished naval officers were condemned as incorrect and, by inference, as dishonest. The Helm and McKean boards did not know their business, according to the intonations of San Mateo's spokesman.

Over two years ago there was a gentleman's agreement among the municipal administrations and the business bodies around San Francisco Bay to lay the claims of the several possible sites before the expert boards and when a decision was once made by the experts to abide by it. It is cause for enduring satisfaction that Alameda and the Eastbay section has never violated that agreement and has never had any intention to do so. So far as this side of the bay was concerned it was felt that to differ with the naval experts on the question of the technical availability of a naval base site would be unwarranted presumption. But the modesty of Mr. J. J. Dwyer is not limited by any such consideration.

THE EARLY RAINS.

Rainfall in Northern California for this season to date amounts to twice the normal seasonal rainfall and about nine times the seasonal rainfall at the same date of last year. During the last forty-eight hours the precipitation was especially heavy in the Sacramento valley and to the northward. Levees have broken in some places and damage to the rice crop has resulted. Some interference to railway traffic has transpired, but this will be speedily corrected.

Aside from harm to the rice crop, which may not be nearly so serious as feared at present, the bountiful rainfall is to be considered a great blessing to California. The last four years constituted an abnormally dry period—indeed, a critical period in the water and power supply of the State. Underground flow and wells in the fruit-growing districts of the valleys had become so depleted that last year's fruit field was below normal, with a considerable loss of trees.

The snowfall last winter was so slight and came so late in the season that the mountain streams and rivers reached their lowest stage early in the summer and the water reservoirs for hydro-electric power plants became so depleted that the power and light companies were forced to curtail consumption of electric power. This

embarrassed many industries and caused the suspension of some.

With the heavy rainfall this season and the early snow in the mountains, however, it seems at this time almost certain that lack of water will not be one of the problems of next year. The land is promised a real soaking down to the sub-soil moisture and the well supply, which all over the State was reported to have reached an alarmingly low stage, will be replenished. The heavy rains are needed for the fruit industry more than anything else. Both new orchards and old had gone longer than is good for them without ample water. The water power plants will have their storage reservoirs filled again and will be able to look forward to next year's business with confidence. This will encourage placer mining and other industries that depend upon electricity for their motive power.

All things considered, the rainy spell is a portent of great prosperity in every line of activity next year. It is a guarantee of many millions of money to those who till the soil and feed the nation with the food staples and the delicacies of California farms and orchards.

SHIPPING BOARD OPERATIONS.

With reference to the statements that have emanated from the congressional committee in New York investigating the operations of the federal shipping board, to the effect that large sums of the public moneys have been wasted and other large sums have not been accounted for according to the regulations, it is well that the public separate two phases of the record of the shipping board and the testimony that has been placed before the committee. Much confusion already exists. Actual conditions are bad enough. Error and misstatement should be avoided.

Mr. Martin J. Gillen testified the other day that it cost the government \$3,800,000,000 to produce the ships of the new merchant marine, and that these ships today are worth only about \$1,800,000,000. This means that the merchant marine shows a book loss of about two billion dollars.

Now, a loss approximately this large was not unexpected. During the war the cost of construction was inordinately high. It was generally known that the cost of building ships, due to the increase in the cost of material and of labor, was about twice what it was before the war started, and that in the race for speedy output a further loss in economy was inevitable.

As regards this phase there seems only one sensible thing to do, and that is for the federal government to strike a balance of its war-time business in shipbuilding, work down the ships to their current market value and charge off the difference to the cost of war. This will enable the Shipping Board to place its operations, capital investment, charge of service, and profit and loss account on a basis comparable to current values and not to the inflated values of two years ago.

The other aspect of the investigation is the disclosure that in the building of the ships their sale and charter to private companies, and in the liquidation of shipbuilding plants there have been many instances of gross negligence and, it is charged, a few cases of simple, criminal grafting. The loss in this connection will not be nearly so large as the loss through the shrinkage of ship values, but it may run into several millions. But these are the losses that constitute the real scandal of the government's venture in shipbuilding.

They were avoidable and should have been avoided. It may develop that the minimum of irregularities were perpetuated during the period of high pressure when the war was being prosecuted. But after the armistice there was neglect and inefficient supervision. Men who had concerned themselves first of all with the building of ships resigned and the greatest business enterprise the country had ever been engaged in was turned over to new hands. Then politics and selfishness began to show.

The Shipping Board, headed by Admiral Benson of the Navy, is now faced with the job of cleaning out the grafters and eliminating the opportunities for graft. This will not be difficult if the board will act at once and take the findings of the investigating committee in good spirit and make it the basis of its proceedings against the guilty. The country can understand the heavy book loss between war values and present values of ships, but it will not be friendly to inefficiency and loose methods much longer.

MISS ROBERTSON OF OKLAHOMA.

Miss Alice Robertson, the anti-suffragist who is to be the only woman in the Sixty-seventh Congress, is a person of opinions and not afraid to express them. She is no tender Miss Rankin. She wouldn't have wept and she wouldn't have voted No on the declaration of war with Germany. An ardent Rooseveltian, she says that "we ought to have gotten in a long time before we did." She tells us that the men "voted for her but bet against her." She was elected, in fact, by a wonderfully complimentary vote, including every service man in her district and a host of Democrats.

No feminist, she won't have a woman secretary at Washington. "It's a man's job, and I want to keep it down." She is a total abstainer, never wore a pair of silk stockings and won't wear high-heeled shoes. To the photographer who invited her to cross her feet as he was about to "snap" her picture she snapped back: "I was raised never to cross my feet and I am going to stay that way." A woman who knows what she wants and what she thinks about small things and great. "I am a Christian; I am an American; I am a Republican." She will "feel no embarrassment because she is the only woman" in Congress. While she made no speeches and solicited no votes outside of her restaurant, she would sit down with voters at their table, "and while consuming a bowl of soup talk politics." She has a record of seventeen bowls of soup at one dinner hour. So says a Muskogee dispatch. If this is myth, one loves to believe it. A healthy, hearty, original and clever person is Representative Robertson.—New York Times.

NOTES and COMMENT

Any number of prophets will now remind everybody that they predicted wetness for the season. That is the way of prophets. When it turns out their way they are on hand with bells so that you won't forget it. If it turns out the other way they are equally profuse with explanations.

It is curious how things go. The whole State and the whole West has been supplicating for rain for four years, and here they are getting too much in some sections in four days. It is a notable instance where too much rain is as well as too little.

Alameda set a fine example of intelligent moderation in its representations to the congressional committee regarding its site for the projected navy base. The merits of the different sites proposed being equal, the straightforward, earnest and comprehensive setting forth of its case must impress the official body which has the deciding voice in the matter.

New Jersey may have been dealable ground in some elections, but its position was definite enough this time. Only one Democrat was elected to the assembly. It will be able to pose as a solitary instance, and that is about all the distinction that he is in a way to attain.

The recrudescence of the Mooney case is disturbing some persons who at one time manifested symptoms of exploiting it for political purposes. The last election settled a good many things, one of which appears to be the spirit that kept such agitations alive.

Somebody is always finding out something new. Among the recent unique discoveries is said to be the fact that a whale can jump twenty-five feet high, being the champion jumper of animals. The kangaroo has been considered pretty spry, but it has a record of but fifteen feet, while the tiger is only good for thirteen.

Anybody less placid than Secretary Daniels would be uncomfortable under the fire that is leveled at him, and the prospect of his increase until March 4. But nothing appears to disturb his equanimity. No one less obvious of public sentiment and the certainties would talk of sending the navy on a world cruise in June.

Cornelius Vanderbilt Jr. seems to be a good scout and appreciative. It will be remembered that he has taken up newspaper work. Also that he was recently married. In celebration of the one venture he came to California, where he found inspiration to exercise the other, and now is saving appreciative things of us.

The Woodland Democrat bites its thumb at Mr. Bryan. "That Mr. Bryan abandoned the Democratic party during the last campaign," he cannot deny. That he allied himself with the hyphenates who knifed Governor Cox to gratify their hatred for an administration that was in power during the world war can hardly be disputed. But Democrats will resent his talk about a reorganization of the Democratic party, or his activities in any respect in shaping its policies. He has forfeited all right to consideration as a leader. Governor Cox is the logical leader."

Great dispersal in Washington impedes. Thirty thousand ornamental job holders, whose votes were considered necessary prior to November 2, are to be permitted to work at something else.

Almost unbelievable conditions have existed in New York in the building industry. Contractors have submitted to extortion to get chance to carry out contracts, and workmen have had to pay for permission to work. A recrudescence of American ideas is the country's great need.

No sooner is there water enough than there is danger of being too much. The well-known Sacramento river is on a very early rampage, seemingly with a determination to show the squabblers over us waters what it can do in a pluvial way.

SPIRIT OF THE STATE PRESS

Dredging was resumed by the engineers of the California Debris Commission at the mouth of the American river this week. Engineer Rich explained that last summer large quantities of sand were deposited near the mouth of the river, which were not removed. When the American overflowed its banks this sand was washed back into the Sacramento river, choking up the channel.—Rio Vista News.

The tendency to honor the memory of heroes of California's early days extends beyond Bakersfield, where steps are being taken to perpetuate the memory of those who garrisoned the old Fort Tejon. The blacksmith shop of John Marshall, original discoverer of gold in California, will be converted into a museum at Kelsey, El Dorado county.—Bakersfield Californian.

A writer in The Oakland Tribune suggests that the community property bill has been scotched so completely that it is not likely to get on the statute books again. On the contrary, measures like the Harris bill and the community property bill will be among the first to be reintroduced and re-enacted at the forthcoming session by fanatical legislators.—Chico Enterprise.

Herbert C. Hoover has so much faith in California land as an investment that he, with Ralph P. Merritt, has purchased a large ranch and will develop it. When a man of Mr. Hoover's judgment makes an investment like this, it means much.—Long Beach Press.

A Few More Suggestions For That Milwaukee Museum.

A ONE-MAN FLAG

Most folk know of some of the perquisites that will accrue to the next President of the United States, such as a band which is at his disposal—the Marine Band—and the White House conservatory which provides the First Lady of the Land with flowers, but it is not so generally known that one of the honors bestowed upon the Chief Executive is a special flag.

This flag is not seen frequently. It does not float over the White House. Its use is reserved for the most part, for occasions when the President appears in his ex-officio function as commander-in-chief of the Army and the Navy.

The President's flag consists of the coat-of-arms as they appear on the President's seal, against a blue background, and flanked by four stars. Its history and use are described in the monograph on "Flags of the World" of the National Geographic Society as follows: "When the President visits a vessel of the United States, the President's flag is broken at the main the moment he reaches the deck and is kept flying as long as he is on board. If the vessel can do so, a national salute of 21 guns is fired as soon as possible after his arrival on board. Upon departure another salute of 21 guns is fired, the President's flag being lowered with the last gun of the salute."

"When the President is embarked in a boat he usually directs that his flag be displayed from the staff in the bow of his barge. When he passes in a boat flying his flag, vessels of the navy parade the full guard, four ruffles are given on the drum, four flourishes are sounded on the bugle, the National Anthem is played by the band, and officers and men salute. When the President is embarked on a ship flying his flag, all saluting ships on meeting her at sea elsewhere, and all naval batteries, fire a national salute on passing."

"Previous to the present order there were two designs displayed on flags and on colors to be used in the presence of the Commander-in-Chief of the army and the navy. The navy design was of a smaller size than that of the coat-of-arms of the United States, as shown in the Great Seal, upon a blue ground. This happened to be almost identical with the infantry colors. The President's colors were designed to be distinctive from the infantry colors, and consisted with a blue ground with a large crimson star, outlined heavily with white. Within the star was seen the coat-of-arms of the United States, and outside the star within its angles were powdered small stars to the number of the States in the Union."

"The double display of flags and colors at the Grand Army Review in 1915 caused considerable comment, and as a result the suggestion was made to the President that the navy flag might fittingly be made distinctive from the infantry colors by the addition of four stars—one in each corner. The flags of an admiral and of a general bear four stars, as a sign of command. The stars of the coat-of-arms, as directed that the President's seal be shown on the President's personal flag and colors."

WORLD BEATING.

We understand that the world's record fast has been accomplished by a Scotsman who has succeeded in remaining in prohibition America for seven months and three days.—Punch, London.

About YOUR HEALTH

What You Should Do to Break Up a Common Cold

By ROYAL S. CORLEAND.
M. D., F. A. C. S.
Commissioner of Health, New York City.

At this time of year, indeed at any time of year, the cold is a common ailment. Ninety-nine times out of one hundred you will pay little attention to it. You say, "It's only a cold and will wear off."

If the slight inflammation of the membranes of the head were the direct result of infection from dust, no disease, it is probable that the cold would disappear quickly; but colds don't come of themselves. There is an advance agent for every illness of this sort.

When you take cold it is proof that you are below normal, probably because of one of the following conditions.

You have abused your stomach.

You have neglected to be regular in your habits.

You have been unusually worried.

You have been too much indoors, without sufficient ventilation.

You have neglected to get the proper amount of sunshine and exercise.

You have been guilty of one or more of these sins, possibly you have been guilty of them all.

The reason your cold hangs on is because your resistance is low. It was so low that you took cold, and it is so low that you cannot easily throw it off.

A cold should be recognized as one of nature's danger signals. When you find a cold coming on you should at once make an examination of the facts to find out, if possible, what is wrong.

While the illness in a majority of cases is a "cold," there is a chance that it may be something more serious. It may even be typhoid fever or pneumonia.

Just what germs are responsible for the common cold is not yet certainly known. It is believed, however, that some germ or germs do cause it. On this account we believe that colds are contagious or infectious—meaning that they can be passed from one person to another. Therefore, when we are "run down" we should avoid persons who have colds. We should take every precaution against touching our mouths or noses any substance or article which may have upon it the germs of a cold. Unclean hands probably are the most common means of carrying "cold" germs. In no circumstances should the hands be placed upon the lips or touch the nose unless they have been washed.

With a little care the ordinary cold can be cured within a short time. The patient should take a bath as soon as possible, and should remain in the tub, with only the head above water, until he is perspiring profusely. He then should hastily rub himself nearly dry and jump into bed between blankets. Then he should have brought to him a quantity of hot lemonade or other hot drink. Excessive perspiration will continue for an hour or more, when the patient should get up, briskly rub himself dry with a coarse towel, and then return to bed and sleep between sheets.

If the simple course outlined above fails to help the patient he is justified in believing that he should consult his family doctor.

YERBA BUENA AND RICHMOND VISITED BY CONGRESSMEN

Joint Navy Base Site Committee to Inspect Monterey and Proceed South.

Yerba Buena was investigated today as a possible site for the Pacific Coast naval base. The "investigation" was very brief and made only because it was provided for in the schedule of the committee instructions. All of the members are convinced of the impracticability of the place and long have had it eliminated from serious consideration.

The committee members and naval officers attached were entertained at an organ recital in the San Francisco civic auditorium this morning, and from there were driven to Pier 14 where they took a barge for Goat Island. After an inspection of the island, the training school, wireless station and camp they were entertained at luncheon by Captain H. B. Price, commander of the island. As guests of Walter D. Cole, president of the Oakland Chapter of Commerce, the entire party will witness the football game between the University of California and Stanford.

Richmond's proposal for a naval base on San Pablo point was shown to the committee yesterday afternoon. The party went to Richmond on the destroyer Claxton and landed first at the point where H. B. Price, secretary of the Richmond Industrial Commission, and George S. Wall, president, pointed out the landmarks and explained the plan. As this site has not been considered by the government engineers there have been no estimates made and no government tests for foundation. The committee members appeared interested in the presentation, and have asked that the plan be filed with them for consideration. Later the party steamed to the municipal warehouse, a mile or more away, where they were met by a group of engineers and architects. Commensal men and taken for an automobile ride through the city, a visit being made to the Standard Oil refinery where extensive improvements recently have been made. W. J. Wallace, secretary of the Chamber of Commerce, was head of the reception committee.

Tomorrow the joint committee will motor to Monterey and then the party will continue to San Pedro and San Diego.

Stanford Club of Eastbay Is Formed

The Stanford Club of Oakland and the Eastbay was organized last night at a meeting of former students of Stanford University at a dinner and rally at the Hotel Oakland prior to the big game today. Harold D. Weber, '17, was chosen as president. Other officers chosen were G. W. Hawley, '13, vice-president, and J. C. Norton, '12, secretary-treasurer. These three with H. Rittigstein, '12, and Harry Price, '11, will form the executive committee. About seventy-five former students were present at the gathering.

Commandant's Wife in Crash of Launches

SAN FRANCISCO, Nov. 20.—A crowded launch from Goat Island and a Peterson Launch Company craft caused a collision on the bay just off Pier 14 yesterday afternoon, in which Mrs. H. B. Price, wife of the commandant, was one to escape injury.

The island craft, a fast boat, was pulling out for the station, the Peterson launch, in charge of A. Gregory, was coming in. Gregory said he gave a signal for the navy boat to hold her course but that she swung across his bow.

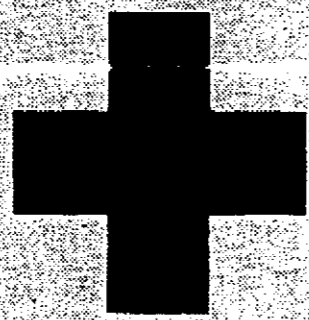

EBELL CONCERT TUESDAY.
The annual concert for the benefit of the East Oakland Settlement will be given on Tuesday night in Ebelle club house. The program will be contributed by Mrs. Eva Gruninger, soprano; Miss J. Williams, alto; Miss Edna Moran, violin; Edwin Carlberg, piano; Mrs. Agatha Cummings Southern, reader. The settlement is one of the pioneer institutions of the city.

PHOTOGRAPHER DROPS DEAD.

Oakland Chapter, Red Cross, Is Driving for More Members

Wearing the 1921 Red Cross membership button yet?
Only five more days in the Fourth Annual Roll Call, Oakland Chapter, American Red Cross, ruled against a house-to-house canvass this year. It decided that endorsement of the work should be voluntarily made by the public. Townhouse stations have been established and will be maintained through Wednesday for the registration of the men and women who believe in the peace program of the society.

Funds for meeting the demands for the coming year must be derived from the annual roll call. One-half of each membership fee will remain in this community to be expended by Oakland chapter. Miss Carol Pardee, for Ebelle, and Mrs. E. G. Spare, for the Oakland Club, are directing the staff of clubwomen who have been requested to direct the downtown membership bureau in banks, department stores and public buildings. A campaign tent was opened last week at San Pablo avenue and Fourteenth street. A generous response is being made by the public.

In the meantime the work of Oakland chapter in home service, relief, providing employment to discharged

**American Stamp
Ad Writing
Contest**

Dear Sir:—The first thing we look for in the Tribune is the Editorials. They are brilliant and wholesome. Two vital qualities. Next we look for the American Stamp ads. We like their novelty, their vigor and truth. You don't need anyone to write your ads. You can write right. But this advertising contest is splendid. It will stimulate your business by making fresh interest in this intelligent way of practicing economy. It is so fine of your company to reward all contestants, so out of the ordinary way. We would like passes to the Home Theater on 13th ave. Our grocer is Mr. Kinnelcutt, 1930 15th ave. He says "American stamps are a wonderful business getter." You may publish my letter if you wish to. Am yours respectfully,

B. ESTORGE,
6228 12th ave.

All contest ads should be mailed to the American Stamp Co., 621 14th Street, Oakland.

School Boy Takes Poison By Mistake

Paul Harvey Cline, Technical High school boy, is at the Fabiola hospital suffering from poison which he took Thursday evening by mistake. Physicians at the hospital say that he will probably die.

Cline resides with Mrs. Ida Kelsey, 577 Fifty-ninth street. His home is in Minnesota. He has been a student of the Technical High school for two years.

ASSESSMENTS ON APARTMENTS MAY BE GIVEN BOOST

Mrs. Cleverdon's Charges of "Rent Profiteering" Stirs Berkeley Officials.

BERKELEY, Nov. 20.—Charges of rent profiteering and the reaping of profits on an alleged low assessment of property, made to the council yesterday by Mrs. W. T. Cleverdon, may result in a survey of values being ordered of all apartment houses in the city.

Councilman Carl Bartlett, commissioner of finance and revenue and City Assessor Harry Squires were ordered to report to the council at the next meeting to show why selling values should not take the place of cost values in making the assessment roll.

In her plea to the council Mrs. Cleverdon cited the case of a certain apartment house as an instance of where the city is losing revenue, which she declares should be in the municipal treasury. A letter to the council in behalf of the State Housewives' League, of which Mrs. Cleverdon is president, set forth these facts:

ALL TENANTS RAISED

The apartments, one of the most fashionable in the city, was erected at a cost of \$21,000 on the statement of its original owner. That it is at present assessed at 70 per cent of this amount, that the building was recently sold for \$68,000, previous to which time a \$10 monthly raise was effected on all tenants. That immediately following the sale rents were again raised in sums ranging from \$15 to \$35 an apartment, an action which, it is declared, caused a storm of indignation among tenants. In reply to complaints of dwellers in the house, the agent for the property is declared to have told them that the owners had refused \$75,000 for the property and that a valuation of \$107,000 had been placed on the apartments, these facts being offered as justification for the increase in rent.

WOULD SHARE PROFIT

When the tenants protested, the agent asked them, "Where else can you go?" said Mrs. Cleverdon yesterday. "If the tenants have no redress then the city should be getting a share of the profits of this apartment house. While the present owners themselves place a valuation of \$107,000 on the property, the city is merely getting revenue on 70 per cent of the original \$21,000, the cost of construction."

"It would be impossible for the city assessor to follow a fluctuating market," declared Councilman Bartlett.

"It's the only thing that he should do," rejoined Councilman Charles D. Hayward. "The use of property is its selling price. If property is sold or could be sold for \$50,000 and cost but \$10,000 at the time of construction, then the former figure should form the basis of valuation."

"The city showed that it did not want an increased tax rate at last Saturday's election and declared that there were ways and means by which sufficient funds could be raised," added Councilman E. R. Harms. "This is undoubtedly one way."

An immediate conference will be had by Councilman Bartlett with Assessor Squires following instructions from the council. A report is expected at the next meeting on Tuesday.

STOCKTON GETS CONVENTION
HAMPDEN, Cal., Nov. 20.—The California Creamery Operators' Association in convention here selected Stockton for the 1921 convention, which will be held in November.

Women Say Koch's Problem Easy Hymen Must Bow to Plutus' Will Delay of Wedding Not a Calamity

Problems, financial and matrimonial, of Robert A. Koch, are receiving expert attention. Yesterday leading financiers of Oakland, through the TRIBUNE, told him how to save \$1,000 in five years, and today prominent women of the East-bay cities are venturing an opinion upon his efforts to evade Dan Cupid.

Koch, formerly a sergeant in the service of the United States marines, well known as a trainer with Kid McCoy, onetime crack pugilist, and recently a chauffeur for an Oakland telegraphist, has received two important telegrams during the past week. One told of the death of his grandmother in New York, and the other informed him that she had left him \$150,000 with two provisions. One of these was that he must marry within 21 years old, must have \$5000 of his own on his twenty-sixth birthday. The other is that he must also remain single until he is 25.

Both of these conditions being Koch considerable mental strain.

Now the romantic phase of his problems is to be further solved by the advice of Oakland women. What some of these had to say about it today was as follows:

MRS. BESSIE WOOD GUSTASON, Business and Professional Women's League—"Five years is but a day in a whole life and 25 is a good sensible age for marriage, hence Mr. Koch should not regard the restriction of his grandmother's will as anything but a decided advantage. If the girl loves him now, she will certainly love all the more at the end of the five years. This is the chance for a wonderful adventure and experience."

MRS. O. E. CHANEY, California Civic League—"The young man will have to be strong minded indeed to escape the dangers of matrimony. However, if the girl loves him enough to plan for a future on his salary as a chauffeur, she certainly will not stand in his way of securing a fortune that will be an advantage to them both. This chance to help should call out the best type of love. Just as no real mother would stand in the way of her son's success, no real mother would fail to help her lover at such a crisis. Anyway, there is no real sacrifice to be made for the young couple can go on being happy just as they have in the past with the added goal for which to work."

MRS. O. P. COLE, President of Parent-Teachers' Association—"What are five years in the lives of two young people? It should be a period of wonderful preparation for the chance for both the young man and woman to work."

Dr. Barber Does Not "Put On Airs"

Dr. F. S. BARBER
DENTIST
1119 Broadway, Oakland
Open Evenings Phone Lakeland 283

No knowing in deference to the "doctor" here. No professional ceremony. Two gentlemen there is no office anywhere in which dentistry is more skillfully performed. Dr. Barber wants no money that he does not earn. He does not look for his profits from individual patients; he is equipped to serve large numbers at low cost—all work guaranteed and painless.

BOY KILLED ON DUCK HUNT AT FLEMING POINT

Adolph Brown, Athlete, Dies When Hammer of His Gun Catches in His Clothing.

BERKELEY, Nov. 20.—Adolph A. Brown, 19-year-old athlete, died today as the result of an accident yesterday afternoon at Fleming Point, Albany, when a gun which he was holding was accidentally discharged.

Brown had finished hunting and was crawling through a two-foot hole in a blind to reach his rowboat in which waited three companions. The hammer of his gun, became caught in his clothing and the gun was discharged, his heart being pierced. Witnessing his death was his uncle, W. D. Deparade, 332 Madison street, Oakland; Raymond Nicola, 1204 Alcatraz avenue, and Harry Grisham of Albany.

The body of the youth was brought to shore by Marshal John Glavinovich of Albany and Peter Villa, Albany merchant, later being removed to the parlors of Deputy Coroner Frank Berg. Brown, who resided at 1417 Sixth street, was the son of Albert E. Brown. He was a former student at Berkeley High school and well known in junior athletic circles. No arrangements have been made for the funeral yet.

Substitute Clerk For Volmer Appointed

BERKELEY, Nov. 20.—J. W. Caffrey, former member of the Berkeley police force, has been named substitute clerk to take the place of Volmer, stenographer to the court. Herndon is confined to a local hospital. He was stricken with appendicitis earlier in the week, collapsing while at his desk at police station. Caffrey will remain on the force until Herndon is able to resume his duties.

TECHNICAL HIGH SCHOOL WINS BAY FOOTBALL CHAMPIONSHIP

TWO DOZEN TRIBUNE LEAGUE TEAMS READY TO PROVIDE FANS WITH FAST BASEBALL

POLYTECHNIC BEATEN BY LOCAL ATHLETES; WILL PLAY MODESTO

Tech. Lads Play Over Protested Game and Slip San Francisco Players 11 to 1 Licking.

By BUD MORIARTY
After a slump in the last two rugby games the Technical High School fifteen showed that they have the old championship caliber by running Coach Harris' band of ruggers from Polytechnic High, San Francisco, off their feet for an 11-to-0 win yesterday afternoon at the Forty-second and Broadway football field.

This belated fray was the result of a protest made by the trans-bay coach in regard to the opening league game of the San Francisco-Oakland High School Athletic League in which the Oakland Boos were victorious by an 18-to-5 count. Tech used ex-Captain Boo Olds in this contest, but he was ruled out of competition a week after the game.

Consequently the San Francisco boys thought that they could further their gonfalon aspirations by putting a defeat on the Technites. Since the Polytechnic lads are the undisputed title-holders of the Bay, they will journey to Modesto next Thursday morning to play the Valley rugby leaders.

As this state is the only one in which rugby games are played, the high school championship of the United States in the English code of football.

Yesterday's game was to have been played at Parvian Field, Eighteenth and Wood streets, but the heavy rain all night made a duck pond of the low grounds there, consequently the two coaches agreed on Tech playing at the stadium. The stadium, owing to the better condition of the earth, which is packed hard as possible, was a much better place to play on than the low grounds. A big turnout of rooters was led by yell leaders Glenn Reynard and Melvin Howard.

Poly kicked off into Tech territory when Referee Graft opened the game. Tech's first play was a forward pass, but it was intercepted by the dribbling of Cowes and Carlson. Kicks to touch brought the apple down again. Tech played saw-sawed back and forth, but failed to convert a Tech backfield pass, and made a forty yard run before he was stopped in his attempt to try for a touchdown.

After Tech's first three points, Tech converted, adding two more to their lead. Tech's fourth point was converted, adding two more to their lead. Tech's fifth point was converted, adding two more to their lead.

Dummy Wells To Play With Olympic Club

The big game of Stanford and California has taken up all the spotlight of the football world for the past week. But the all-American presentations have been going on for the past week. The game of this section, to be played on California Field between the Pacific Fleet and the Olympic Club, has promises to be about the best football contest of the season outside the realm of the University and the Olympic Club has been busy strengthening its lineup to meet the All-Star Sailor aggregation.

The game is not going to be another of those local sailor affairs, for the Pacific Fleet team includes in its personnel three All-American stars and is composed entirely of former Annapolis and college veterans. Commissioner Jack Spaulding has met with many disappointments throughout the season in securing the men needed to make the Olympic Club the crack aggregation of the West among club teams, but he has apparently at last been successful, for he has landed the best fullback on the Pacific Coast—Dummy Wells.

Dummy Wells has been out in a winged suit for two nights in practice and his presence will greatly strengthen the club eleven. Wells is unquestionably the best punter on the Pacific Coast and is in perfect condition, having spent a large portion of the time the past two months in conditioning the California team with Wells in the backfield. Wells is a star of the University of Nebraska, and his presence on the Olympic Club eleven will take the measure of the All-American sailor stars.

The game will closely rival the Big Game in player ability and excitement. Admiral Rodman has ordered the fleet to meet the Olympic Club at the stadium, and the game will be played on the field. The game will be played on the field.

The game will be played on the field. The game will be played on the field. The game will be played on the field.

Fast Games Expected in Class B Race

The class B games tomorrow should result in another big shake-up in the percentage column, the same as it has been in the Elmhurst Merchants lost their hold on the top rung. The first game in that division will be played on the morning at the Key System Park. Forth and San Pablo. The Peet Brothers, who took the Elmhurst club down the line last Sunday, will entertain the Elmhurst and both clubs are holding the same standard in the league. George Kister will do the chucking for the railroad boys, while Bill Plummer will work for the Peets.

Plummer is surprising all the boys by his pitching for the soap company team and he has kept up the good work which he showed against Elmhurst. The Peet will be up there all the time, and will be taking over the management of the club, has a fine lot of players. The Peet have requested the league to let them change their name to Poplar Candy Company. This game will start at 10:30 a. m.

ALLENDALE VS. MOOSE.
In the afternoon game at the Key System park the Oakland Moose will make another attempt to break into the class B with a victory over the Allendale Merchants, who will leave their home diamond for the first time. The Merchants will also appear with a new manager in the person of Frank Smith, old Allendale catcher. Harry Nielsen, who has been in the league, but will continue as a player. Pinkerton and H. Kihn were released by Smith. That pair will make a nice battery for the club in the league. It is likely that Cy Cunningham and Smith will form the double battery against "Lefty" Fain and McGuire. The Moose and Allendale clubs are the only ones in the league who have not played yet.

Local fans will get their first chance to see the Haywards Native Sons play in the league when they will come to Elmhurst to play the Elmhurst Merchants at Ninety-ninth and Broadway. The Native Sons have been very strongly by some managers before the start of the season, but with Harry (Duke) Keller pitching great ball and a fast team to back him, the Natives can figure in the race right to the end. Manager Service has all his boys hustling and fans should get a real treat when the Natives stack against the Elmhurst club. Last Sunday one of the biggest games of the season was played at Elmhurst when they won a hand, and a larger crowd is expected tomorrow. Keller will work on the hill for the Natives.

MELROSE PLAYS AT HOME
The Melrose Merchants club is the favorite for first place, and they figure to have a hard time holding that place when they run against the Central Oakland Merchants at the Melrose diamond. The Melrose Merchants have all three of their games. The Melrose Merchants have all three of their games.

The Melrose Merchants have all three of their games. The Melrose Merchants have all three of their games. The Melrose Merchants have all three of their games.

ALAMEDA BETH TEAM SIGNS THREE STARS FOR GAME TOMORROW

Games in Class A Will Be Played At Coast, Alameda and San Leandro Ball Parks.

By EDDIE MURPHY
The little Joe Bushers who have been crowded out of the picture by the football athletes of late will come into their own again tomorrow when a dozen games will be played in the TRIBUNE League schedule. With the college huskies taking up most of the space on the sporting page, the kids haven't been given much of a tumble, but they have been busy practicing and are ready to step out and show the fans some flossy pastime. With the season over in the valley league some crack ball players have come to town and joined the local teams and the race is getting exciting.

As soon as Jupiter Pluvius beat it out of the bay district yesterday and Old Sol beamed with a big smile, men were put to work on the San Leandro and Alameda diamonds to get them in shape for playing of the class A games. Out at the Coast League Park the field was in pretty good shape, and indications are that games in all three divisions of the league will be played.

HOLLIS WILL PITCH
Against the Tractors
The Halton-Didders of Alameda are found leading the class A race, and it is the Halton-Didders who will pitch for the Tractors tomorrow. The Halton-Didders are found at the bottom of the class A heap. In spite of that, they are looking for that game at Alameda to develop into one of the best of the season. The Halton-Didders are found at the bottom of the class A heap. In spite of that, they are looking for that game at Alameda to develop into one of the best of the season.

BASEBALL GOSSIP

A meeting of the Class A managers will be held at THE TRIBUNE Building Monday night. At this meeting the managers will decide if their teams will play games or not on Tuesday night. The meeting will start at 7:30 sharp.

The managers of the Peet Bros. Elmhurst Merchants and Crystal Juniors of the Class B league are requested to report at THE TRIBUNE Building Monday night at 7:30 sharp. The Arbitration Board will be on the job for the first time.

Manager Charles Pruiett has rounded up three real stars to strengthen his Alameda Bethlehem team and will have them in the line against the California Millers at the Elmhurst diamond. Sunday afternoon. Rudy Moran, formerly of the California Cotton Mills, will play the first sack, while George O'Connor, former of the Peet Bros. Elmhurst Merchants, will play the second. Joe Rodgers will hold the third, where he has been playing for some time.

Manager Bill Wagner has signed Eddie Dean to play for the C. L. Best Tractors, taking the place of Oakes O'Connor. The Tractors meet the Halton-Didders at Alameda. It should be some contest, even though the Tractors are on the top, and the Alamedans are on the bottom.

Gussie Smith will be in the line for the California Cotton Mills when they meet the Peets. The Coast Tire and Rubber and the Crystal Laundry team will meet at the San Leandro park. Both managers have announced that their teams will play the game. The game will be played on the field.

The Coast Tire and Rubber and the Crystal Laundry team will meet at the San Leandro park. Both managers have announced that their teams will play the game. The game will be played on the field.

The bakers' shops have been replaced by huge new government offices which will provide work for the unemployed.

The office of the superintendent of schools, where four helpers have been discharged during the strike, has also been closed. The various schools have been ordered to report to the superintendent's office every Saturday morning and will assume the extra labor. Special desks have been placed for the officers of the National Labor Relations Board.

INDUSTRIALS ARE REACTIONARY IN STOCK DEALINGS

NEW YORK, Nov. 20.—The stock market today was a heavy one, with a further weakening, irregular recovery following the close of yesterday's session. The market was characterized by a reaction in the industrial sector, with many stocks showing a downward trend. The volume of trading was heavy, and the market was generally bearish.

WIFE OF OFFICER
SHOOT AT THIEF
TAKING RABBITSMaurauder Flees As Woman
Fires Three Shots, Escapes
Through Brush.

Police in East Oakland are looking today for a rabbit thief who last night dodged three bullets fired at him by Mrs. Charles Fife, wife of a police officer at 1089 Seventy-fifth avenue.

Mrs. Fife at midnight heard a commotion in her barnyard and, arming herself with a revolver, went out to investigate. As she approached her rabbit pen a man came out of the shadows carrying a sack and ran toward a barn 50 feet away. Mrs. Fife fired at him three times as he ran, but does not believe that any of the shots took effect.

The thief dodged behind the barn and found himself on the edge of an eight-foot gully with no avenue of escape except to jump into the ditch or to run through tall brush close to its edge and next to a barbed wire fence. Believing that his pursuer was about to fire again he set up a loud cry of "Oh, my God!" dropped the bag of rabbits and, with a loud crashing of brush, made his way to safety. The revolver had been emptied. Mrs. Fife telephoned to the police and an investigation was made both last night and today. There is no sign that the man was wounded.

The Fifes were married April 1, 1919, while he was thought to be on his death bed with pneumonia. Mrs. Fife, who was Elizabeth Jane Bohman, nursed him through his illness.

PIONEER MOTOR
FIRMS COMBINE

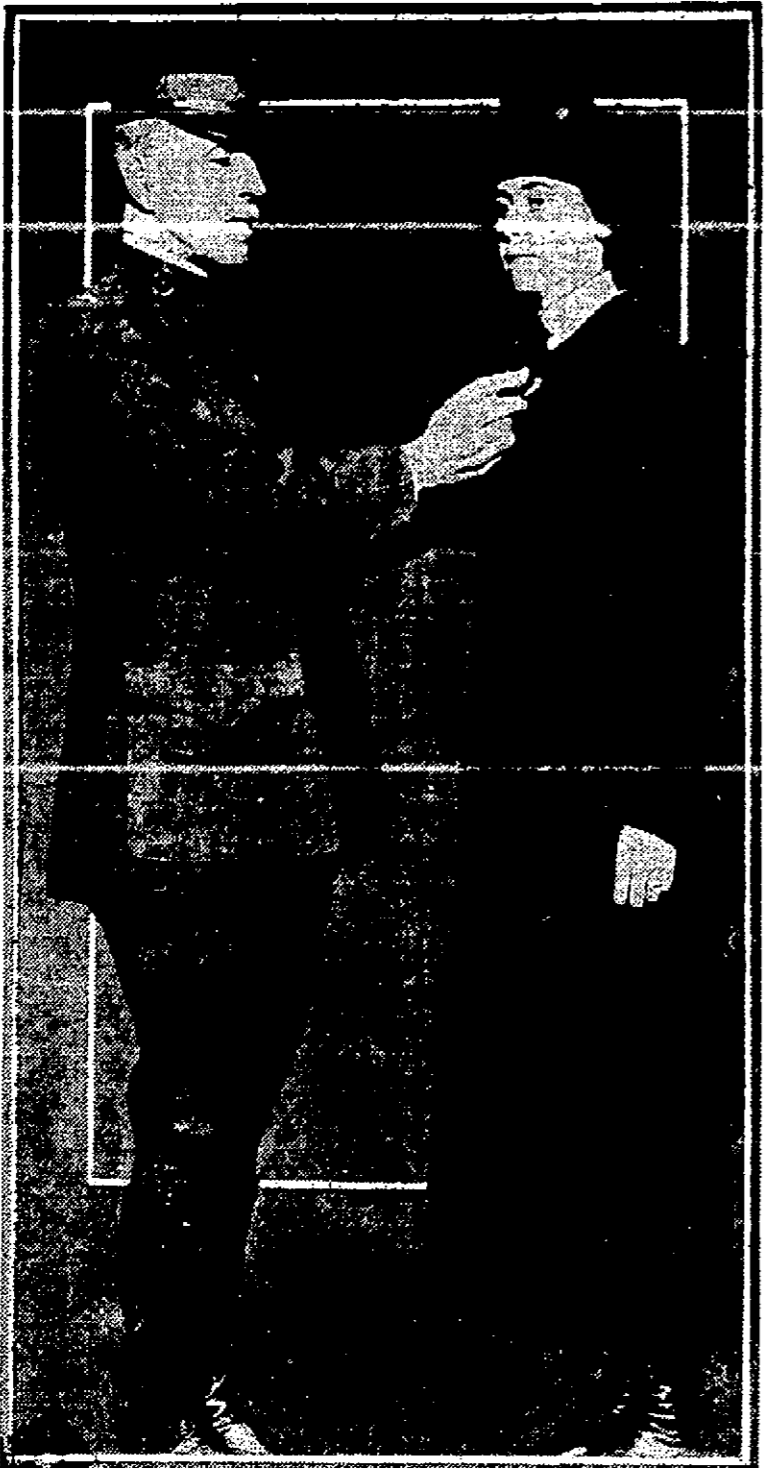

Announcement was made today of the consolidation of the E. L. Peacock Auto Company and the Hebrank Hunter Auto Company, pioneer automobile distributing concerns of Oakland and two of the most successful establishments of the Eastbay region.

The name of the consolidated organization is the Hebrank, Hunter & Peacock Company. The new company will continue the sale and distribution in this territory of the well known Chandler and Cleveland Six lines of motor cars.

Co-incidental with the announcement of the consolidation is the appointment of Chas. Nagel as vice-president of the Peacock Motor Sales Company of San Francisco and the appointment of Nagel as director of sales of the Peacock Motor Sales Company and the Hebrank, Hunter & Peacock Company.

For the last six years Nagel has held the position of vice-president and manager of the E. L. Peacock Auto Company, now in the consolidation. Officers of the new organization are Chas. L. Hebrank, A. E. Hunter and E. L. Peacock. Hebrank is manager and secretary-treasurer, Hunter president and Peacock vice-president.

The new company will make its headquarters in the same building on upper Broadway that for many years has housed the E. L. Peacock Auto Company. The Twelfth and Jackson streets branch of the old Hebrank-Hunter Auto Company will become a downtown branch of the consolidated concern with Guy Petty in charge.

OFFICERS NOMINATED
At its regular meeting last night in the memorial hall at the City Hall, John Jacob Astor Post No. 85, Veterans of Foreign Wars, nominated these officers for the coming year: For commander, Fred Herbert; senior vice-commander, T. D. Foster; junior vice-commander, W. Hurley; officer of the day, Ben Gaylor and Henry Wallace; for chaplain, V. Barkis.Fair "Marinette" Is Honored
With Decoration From Navy

Oakland's "Marinette," BETTIE LARRICK, is here glimpsed as she was decorated with a Victory medal today from the hands of Brigadier-General George Barnett in San Francisco.

Miss Betty Larrick of Oakland Is Awarded Victory
Medal at Interesting Ceremony

Resplendent on the lapel of her trim service uniform there shines today for Miss Betty Larrick, 3970 Piedmont avenue, a decoration of honor, the Victory medal.

It was pinned there at 10 o'clock this morning by Brigadier-General George Barnett, commander of the coast division of the United States Marines, in the presence of his full staff and with all naval honors, for Bettie Larrick is a "marinette," the last in service and the first to be decorated.

The ceremony which attracted a large number of persons to the headquarters of the Marine Corps at 38 Annie street, San Francisco, was a mark of peculiar honor, for Miss Larrick is held in deep regard by the whole personnel of the corps about the bay.

Enlisted in the marines during the war with a number of other Oakland and San Francisco young women, she has continued her service since that time and has seen all her sisters honorably discharged and back in civilian pursuits.

When the marines held their ball in San Francisco not long ago it was Bettie Larrick whom they selected as "queen" of that function.

Recently it was determined by General Barnett that in the bestowal of Victory medals Miss Larrick was entitled to the honor. And so today, in the presence of those for and with whom she has worked so long, she was decorated.

WANTS \$5775 DAMAGES.

Suit was filed in the United States district court yesterday by Alameda Priexinha of Oakland against the Southern Pacific company, claiming \$5775 damages as the result of injuries received when he was struck by one of the company's freight trains while walking along Twenty-third avenue on the evening of November 21, 1919. Priexinha alleges that he suffered the fracture of several ribs, a broken nose and other injuries, which incapacitated him.

SANTA FE LIKELY
TO BUILD STATION
ON WATERFRONTQuarrel With S. P. May End
in Invasion of Oakland
With New Terminal.

A quarrel over joint operation of the terminal in Oakland which may result in the erection on the waterfront of a station and yards by the Santa Fe is a result of the return to private ownership of the railroads of the country and of the keen competition that has developed between the Southern Pacific and the Santa Fe.

The Santa Fe some weeks ago announced its intention to return to the Richmond terminal which was abandoned with the government administration of the roads.

RENTAL INCREASE
Efforts to have the road continue to use the waterfront which was fast trains to the south and operate them from this city, were said to be bearing fruit when the Southern Pacific is said to have announced a decided increase in rental for the privileges of using the route.

This increase, according to railroad men, is equivalent to an order to move out, and accordingly, preparations are being made to open up the Richmond terminal at an early date as December 5.

CHEAPEN METHOD

The Santa Fe admits that it can operate more cheaply at the Richmond site, which it owns, than over the rented rails and stations, but is willing to continue for the sake of the better service given. The old plan of running trains into Oakland at Portland and San Pablo will be resumed and everything will be the same as it was before the war.

Santa Fe officials, however, are said to be exercised at the attitude of the Southern Pacific and the plan to invade this city's territory with a terminal and aggressive policy is said to be up for consideration in the councils of the road.

Veterans to Stage
Big Bonus Parade

Plans are now under way by various veterans of the world war, including American Legion members of both posts in Oakland, for holding one of the largest parades of ex-service men ever seen in the west on Sunday, December 5, as a means of demonstrating to the public that the ex-service men want a bonus. It is planned to hold the parade on Sunday so that every ex-service man in the Eastbay district will be able to participate. The parade will be held from the city hall, beginning at 11 o'clock, it is present plans are carried out.

Parades in other cities will be held simultaneously to advocate the bonus plan, which will be brought before Congress when it convenes early in December. It is expected that more than 6000 veterans will be in line.

Third Sugar Cut is
Made in Three Weeks

That was the announcement with the publication of new sugar trade lists by all coast refiners today. The new quotation on standard granulated and confectioners' sugar is \$9.50 a hundredweight. The cut from a quotation made only a week ago is 50 cents and is the third 50 cent cut in almost as many weeks. The cut ultimately will mean another retail price decline, 12 cent sugar at retail being in prospect. Under the new list special packs of sugar range up to \$11.50 and coarser grades down to \$8.80.

Garage Needed
To Save City
Breaking Law

Hastening action lest the new traffic ordinance make the city's own cars lawbreakers, Superintendent of Streets George Mattis today presented to Commissioner Edwards a detailed plan of the proposed municipal garage under the City Hall.

For a long time the city's cars were parked in a vacant lot on Clay street, but the owner raised the rent and it was ordered that the municipal vehicles park on the streets as best they can. As a result, the region of the City Hall is cluttered with automobiles belonging to the various city departments. There are ninety machines in all belonging to the city, and about sixty are homeless.

The new traffic ordinance, however, prohibits downtown parking, except within rigid time limits. Unless the city's cars present an example of living up to the law, they will present an example of lawbreaking for other vehicles to follow, it is said.

Mattis plans a long runway from Washington street, near Fourteenth, to the present driveway in the cellar. It is believed that nearly fifty cars can be accommodated when the place is cleared out.

The cost of the innovation is believed to be small, and it is said that the matter will be presented to the council for action next week.

Funds Asked For
Stricken Austrians

Cable despatches telling of the serious situation in Vienna with regard to food, housing and fuel has stirred the Vienna Relief Society, now operating in Oakland and in San Francisco to new activity. The society was organized in Oakland about six weeks ago and is under the direction of Mrs. J. Hoefinger Schwedler, who was also instrumental in organization of the Vienna relief work in Los Angeles. Mrs. Schwedler has numerous reports from the needy Austrian capital confirming the dire straits of the people.

The Vienna Relief Society has been formed to solicit and receive gifts of money, clothing and food which it ships. Money which is taken in is converted into food drafts as on the American food warehouse in Vienna. The Vienna Society has headquarters at 1838 East Fourteenth street.

Rich Prizes Listed
For S. F. Cat Show

SAN FRANCISCO, Nov. 20.—One hundred and four prizes are being offered in the various classifications of the annual Cat Show to be held December 10 and 11 at the Civic Pacific Cat Club. The premium and prize list was mailed out today, and includes a number of handsome and valuable cups and trophies. The proceeds of the show will be turned over to the free emergency hospital and clinic which is being maintained by the San Francisco Society for the Prevention of Cruelty to Animals.

CHAS. H. WOOD
OPTOMETRIST
CORRECTLY
FITTED
414 FOURTEENTH STREET
OAKLAND
THE WINKING EYEHERO OF WAR TO
LEAD BIG NAVY
PARADE MONDAYCommander Glasford, Who
Won Fame in Submarine
Warfare To Be Here.

When the Navy parade swings through the streets of Oakland Monday on the occasion of California Day, it will be led by one of the most interesting naval figures of the great war, it is announced by the Navy recruiting station which is now engaged in signing native sons for the crew of the dreadnaught California, nearing completion.

That figure will be Commander William G. Glasford, wearer of the D. S. C. and hero of the submarine warfare. Glasford was in command of the famous destroyer Shaw and won his cross for a victorious combat with a U-boat in which the German was sunk.

Later it was Glasford and his crew who took the Shaw to port after a collision in a fog in which the destroyer was almost cut into two.

Incidentally it was the Shaw which made the fastest trip from the Pacific coast to the submarine zone of any ship during the war.

Arrangements are being completed by Mayor Davis for the reception of Governor Stephens and his entourage to be here for California Day and for Admiral Rodman and his staff.

Cruelty Charged By
Wife in Divorce Plea

Cruelty is the allegation made by Mrs. Agnes H. Fleischer in her complaint for divorce against August C. Fleischer. Mrs. Fleischer asks \$100 a month alimony and custody of the three children, who range from 7 to 12 years of age.

The plaintiff alleges that while she was sick in a local hospital her husband and a male companion went to the hospital drunk, indulged in great hilarity and ended up by going to sleep on one of the beds in the wards.

Arnerich Endorsed
As U. S. Marshal

SAN JOSE, Nov. 20.—Paul J. Arnerich, deputy sheriff here and a former deputy United States marshal, has been endorsed by the county Republican central committee for the office of United States marshal and has started an active fight for appointment to the position. It was announced here today. The position will be filled by the incoming Republican administration.

Speed Fiend
Subdued by
Cop's 'Billy'

Belief that Policeman T. H. Mulhollen did not have the authority to make an arrest in Emeryville for an offense committed in Oakland early today landed Peter D. Fantina, 140 Park avenue, Elmhurst, in the receiving hospital suffering from painful lacerations about the head and shoulders.

According to the officer Fantina was enjoying a wild ride down San Pablo avenue. He is alleged to have roared past the intersection of Twenty-fifth and San Pablo avenue with his muffler open when Mulhollen ordered him to stop. Fantina failed to comply.

Commandeering the automobile driven by Ralph P. De Puy, 112 Market street, San Francisco, Mulhollen gave chase and succeeded in overtaking Fantina in Emeryville.

Stopping his car, the latter stepped from the vehicle and defied the officer, it is said. A battle followed. According to Mulhollen he was forced to subdue the man with a night stick and it was only after he had rendered him unconscious that he was able to make the arrest.

Fantina was later taken to the city jail where his bail was set at \$120.

Commerce Chamber
To Name Directors

The "nominating convention" of the Oakland Chamber of Commerce will be held next Wednesday. The chamber makes its nomination for directors at a membership luncheon every year, which will be held this time in the south banquet room of the Hotel Grand. Walter D. Cole, president, will preside.

The retiring directors are O. H. Fischer, W. W. Johnson, Dr. J. L. Fletcher, George C. Sheldon, C. E. Thatcher, James Travers and R. J. Marchant. Under the rules of the organization they cannot be elected to succeed themselves or be appointed to a board vacancy until they have been out of office for a year.

Missing Girl is
Restored to Mother

SAN FRANCISCO, Nov. 20.—After a search of several days, police have restored Emily, 16 years old, daughter of Mrs. Sarah Schmidt, of 268 Athens street, to her mother. Emily had gone missing last Saturday. She was found with a man who gave the name of Grayam, but is declared to be Leslie Adair, an agent, at a hotel downtown and had been there several days. Adair has been arrested as has Joseph Moniz in connection with the girl's delinquency.

NEW RATE ASKED
FOR WORKERS WHO
GO TO MOLE DAILYSouthern Pacific Requested
to Reduce Fares From City
to Waterfront.

City Attorney H. L. Hagan this morning addressed the Southern Pacific company on behalf of the Oakland city council concerning the proposed reduction of fares from Oakland to the Oakland waterfront. At present workers on the waterfront to the westward have to pay the same fares as San Francisco commuters, though they only get half the trip.

Hagan asserts that there are now 500 persons employed at the western waterfront at the Alhambra, Park, American Manganese and other plants, with more employees sure to come in the future. The letter proceeds:

"The practice of charging these passengers full fare is discriminatory and unreasonable. Clearly it is not fair to charge these passengers who do not utilize your ferry boats the same rate as those that do."

"You do not charge your other passengers between your other stations in the city of Oakland the same rate as is charged to the trans-hay ferry passengers. It seems to me, therefore, that you should establish a rate commensurate with the service rendered for those passengers who merely use your trains to arrive at the Oakland mole."

The establishment of a new rate to the mole is formally asked.

COCHRAN'S NAME
ON U. C. STATUE,
PLAN OF ALUMNI

The name of Garrett Cochran, who was killed in the World War, will be carved on the football statue in the grove of live oaks on the campus of Berkeley, if the sentiment of alumni of the university is to be recognized. The request was sent to President David P. Barrows last night following a banquet of alumni in San Francisco. Cochran was a football coach at the university several years ago.

The banquet, at which Judge Everett Brown of Oakland presided, were present a large number of former football heroes, including "Loonatics" Smith, Bert Thorne, Jimmy Hopper, "Greek" Howard, Pete Kaarsberg and Sam Stowe, the last named making the journey from Manila to be present.

The Housewives Burden

When a woman is almost distracted from overwork, her home is in disorder, crying children, and on top of all is suffering from backache, bearing down pains, or some other form of feminine ills, then she should remember that hundreds of women in just her condition have been restored to health and regained their youthful strength by taking Lydia E. Pinkham's Vegetable Compound and not rest until she has given it a fair trial.

Proof that it Restored the Health of These Two Women

Cairo, Ill.—"Some time ago I got so bad with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept fighting to keep from having the operation. I had read so many times of Lydia E. Pinkham's Vegetable Compound and it helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine."—Mrs. J. R. MATTHEWS, 3311 Sycamore Street, Cairo, Ill.

Chattanooga, Tenn.—"I used Lydia E. Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the ill effect which so often develops at such times. That was my first experience with the Vegetable Compound. Years afterwards I took it during the Change of Life and got along so well I scarcely ever had to lie down during the day and seldom had dizzy, fainting spells. I am now well and strong, can do all my housework with perfect ease and it is a comfort to me to be able to say to other suffering women 'take Lydia E. Pinkham's medicine and be strong.' I will be glad to have you use my name if it will be the means of helping any one."—Mrs. R. A. FAIRBURN, 606 Orchard Knob Ave., Chattanooga, Tenn.

Ailing, Overworked Housewives Should Rely Upon

Lydia E. Pinkham's Vegetable Compound

LYDIA E. PINKHAM MEDICINE CO. LYNN, MASS.

SAVE

for Marriage

Never is life brighter and more promising than in its Springtime—matrimony. Then to the young couple appeals the practical advantages of saving money.

That you might begin your married life with more conveniences and comforts—begin saving now.

A woman has the privilege of helping her fiancé to save. His salary may be small now. Many luxuries and indulgences that are costly tempt him for her sake. She, therefore, can suggest many ways to add to the Savings Account.

Make the time of marriage happier and more secure. Begin saving now. Open an interest bearing Savings Account.
